COMPOSITES 2025 CONFERENCE

INDUSTRY SPEAKERS AND TECHNICAL PRESENTATIONS AND DISPLAYS!
Join us in Brisbane for two days from 30 April to 1st May that will be filled with stimulating presentations from composites practitioners and thought-leaders.

The Composites Australia conference is a platform where innovation meets application and theory intertwines with practical. Our invited speakers will reveal how material science and advanced composites are providing step-change solutions to next-gen problems pushing the boundaries of commercialisation.

Kerryn Caulfield, Executive Director Composites Australia Inc.

For 21 years, this unique conference has provided delegates with strategic insights into a wide range of aspects associated with operating and growing a composites business and collaborating with composite companies. Welcome to a journey of discovery, collaboration and innovation at the 2025 Composites Conference.

THE VENUE

Royal Queensland Yacht Squadron

Established in 1885, the Royal Queensland Yacht Squadron (RQYS) is Queensland's oldest recreational boating club. Located on the picturesque Moreton Bay in Manly, a scenic South-Eastern Bayside suburb just 20 minutes from Brisbane Airport, the Squadron offers some of the best waterfront views in Brisbane.

Check out compositesconference.com.au for accommodation options.

CONFIRMED SPEAKERS

Kyle Davison

Manufacturing Director, Riviera Australia
THE FUTURE OF MARINE CRAFTSMANSHIP: TRAINING THE NEXT GENERATION AT RIVIERA AUSTRALIA

Sachini N. Dissanayake

Institute for Frontier Materials, Deakin University
TOUGHENING EPOXY NETWORKS THROUGH TOPOLOGICAL CONTROL

Phan (Mia) Nguyen

Institute for Frontier Materials, Deakin University
DURABLE COATINGS THAT AUTOMATICALLY HEAL DAMAGE

Nathan Howell

Lead Engineer, Composites Manufacturing, Bradfield Development Authority
BUILDING ADVANCED COMPOSITE MANUFACTURING CAPABILITIES IN WESTERN SYDNEY

Simon Karpeles

Engineering Manager at RPC Technologies Pty Ltd
GRP PIPING - A SUSTAINABLE SOLUTION FOR THERMAL POWER PLANTS

Michael Kemp

Chief Technical Officer, Wagners
CFT & CEO ADVANCED COMPOSITE SOLUTIONS FOR MARINE INFRASTRUCTURE

Luke Preston

Head of Technology & Partnerships, Quickstep Group
AERO-LINE: FUTURE FACTORY SIMULATION

David Stevenson

Product Line Manager, allnex Composites
GREEN REVOLUTION IN MATERIALS SCIENCE: PIONEERING SUSTAINABLE RESINS FROM RECYCLED SOURCES

Manny Samano

Industrial Chemicals and Minerals Manager (ANZ), Bisley Australia
UNLOCKING THE POTENTIAL OF PUREGRAPH® GRAPHENE
